Percentage of Demand Met by Existing Facilities/Spaces		112%	86%	90%	47%	38%	45%	67%

(1) Based on estimated number of children by area using ABAG Projections 2005.
(2) Labor force participation rates are from the 2000 Census and include children with two working parents or single working parents. Rates vary by age, under 6 years and over 6 years.
(3) Not all children with working parents are assumed to need licensed care: the assumptions - % - under each age category are used. The remaining children are assumed to be cared for by family members, nannies, friends, and unlicensed care. Percentages are based on a detailed review of 12 other child care studies, including impact fee studies.
(4) Data on child care supply provided by Child Care Council, July 2006.
(5) Family Child Care Home spaces by age are broken down by licensing regulations. It is assumed that for small FCCHs, 2 spaces are infant, 4 are preschool, and 2 are school age. For large FCCHs, it is assumed that 3 spaces are infant, 6 are preschool, and 5 are school age.

The remaining children are assumed to be cared for by family members, nannies, friends, and unlicensed care. Percentages are based on a detailed review of 12 other child care studies, including impact fee studies.

(4) Data on child care supply provided by Child Care Council, July 2006.

(5) Family Child Care Home spaces by age are broken down by licensing regulations. It is assumed that for small FCCHs, 2 spaces are infant, 4 are preschool, and 2 are school age. For large FCCHs, it is assumed that 3 spaces are infant, 6 are preschool, and 5 are school age.

- (1) Based on estimated number of children by area using ABAG Projections 2005.
(2) Labor force participation rates are from the 2000 Census and include children with two working parents or single working parents. Rates vary by age, under 6 years and over 6 years.
(3) Not all children with working parents are assumed to need licensed care: the assumptions - % - under each age category are used. The remaining children are assumed to be cared for by family members, nannies, friends, and unlicensed care. Percentages are based on a detailed review of 12 other child care studies, including impact fee studies.
(4) Data on child care supply provided by Child Care Council, July 2006.
(5) Family Child Care Home spaces by age are broken down by licensing regulations. It is assumed that for small FCCHs, 2 spaces are infant, 4 are preschool, and 2 are school age. For large FCCHs, it is assumed that 3 spaces are infant, 6 are preschool, and 5 are school age.

Percentage of Demand Met by Existing Facilities/Spaces		75%	85%	84%	34%	27%	32%	59%

(1) Based on estimated number of children by area using ABAG Projections 2005.

(2) Labor force participation rates are from the 2000 Census and include children with two working parents or single working parents. Rates vary by age, under 6 years and over 6 years.

(3) Not all children with working parents are assumed to need licensed care: the assumptions - % - under each age category are used. The remaining children are assumed to be cared for by family members, nannies, friends, and unlicensed care. Percentages are based on a detailed review of 12 other child care studies, including impact fee studies.

(4) Data on child care supply provided by Child Care Council, July 2006.

(5) Family Child Care Home spaces by age are broken down by licensing regulations. It is assumed that for small FCCHs, 2 spaces are infant, 4 are preschool, and 2 are school age. For large FCCHs, it is assumed that 3 spaces are infant, 6 are preschool, and 5 are school age.

Percentage of Demand Met by Existing Facilities/Spaces		83%	89%	88%	68%	54%	64%	75%

(1) Based on estimated number of children by area using ABAG Projections 2005.
(2) Labor force participation rates are from the 2000 Census and include children with two working parents or single working parents. Rates vary by age, under 6 years and over 6 years.
(3) Not all children with working parents are assumed to need licensed care: the assumptions - % - under each age category are used. The remaining children are assumed to be cared for by family members, nannies, friends, and unlicensed care. Percentages are based on a detailed review of 12 other child care studies, including impact fee studies.
(4) Data on child care supply provided by Child Care Council, July 2006.
(5) Family Child Care Home spaces by age are broken down by licensing regulations. It is assumed that for small FCCHs, 2 spaces are infant, 4 are preschool, and 2 are school age. For large FCCHs, it is assumed that 3 spaces are infant, 6 are preschool, and 5 are school age.

Percentage of Demand Met by Existing Facilities/Spaces		68%	52%	54%	41%	33%	38%	46%

(1) Based on estimated number of children by area using ABAG Projections 2005.

(2) Labor force participation rates are from the 2000 Census and include children with two working parents or single working parents. Rates vary by age, under 6 years and over 6 years.

(3) Not all children with working parents are assumed to need licensed care: the assumptions - % - under each age category are used. The remaining children are assumed to be cared for by family members, nannies, friends, and unlicensed care. Percentages are based on a detailed review of 12 other child care studies, including impact fee studies.

(4) Data on child care supply provided by Child Care Council, July 2006.

(5) Family Child Care Home spaces by age are broken down by licensing regulations. It is assumed that for small FCCHs, 2 spaces are infant, 4 are preschool, and 2 are school age. For large FCCHs, it is assumed that 3 spaces are infant, 6 are preschool, and 5 are school age.

(1) Based on ABAG 2005 Projections, and children as % of population for year 2005.

(2) The sum of all cities/areas do not sum exactly to countywide total due to rounding errors; slight adjustments have been made to each estimate of children by age by city to account for difference geography between city SOI and City as defined by census tracts.

(3) Based on age as percentage of population for the 2000 Census.

(4) Alamo-Blackhawk Percent of Population by Age category uses breakdown for the Town of Danville as it is not available for Alamo Blackhawk.

(5) Rodeo-Crocket Percent of Population by Age category uses breakdown for the Remainder as census tract data for this area not available for this area.

(6) Rural East Contra Costa County Population by Age category is based on an average of the percentages for Oakley and Clayton.

(7) LFPR for Remainder are same as for Rural East County as these rates are not available for a "remainder" area.

(1) Based on ABAG 2005 Projections, and children as % of population for year 2005.

(2) The sum of all cities/areas do not sum exactly to countywide total due to rounding errors; slight adjustments have been made to each estimate of children by age by city to account for difference geography between city SOI and City as defined by census tracts

(3) Based on age as percentage of population for the 2000 Census.

(4) Alamo-Blackhawk Percent of Population by Age category uses breakdown for the Town of Danville as it is not available for Alam Blackhawk.

(5) Rodeo-Crocket Percent of Population by Age category uses breakdown for the Remainder as census tract data for this area not available for this area.

(6) Rural East Contra Costa County Population by Age category is based on an average of the percentages for Oakley and Clayton.

(7) LFPR for Remainder are same as for Rural East County as these rates are not available for a "remainder" area
