

ROP Offers Hands-On Experience

Hospital Internships

These students from **Antioch High** and **Freedom High** interned at **John Muir Medical Center** last summer. ROP students also intern at **Kaiser Permanente** and **Sutter Delta Medical Center**.

Culinary Arts

Students help prepare chicken piccata with fresh pasta during a cooking demonstration of the Kitchen Academy in Joan Ivarson's ROP Culinary Arts class at **Antioch High**.

ROP: Career Preparation

- ROP prepares students for challenging careers
- Over 60 high school courses are offered by ROP
- Business partners' expertise and equipment donations are essential to students' success—Thank you!

Veterinary Science

Students learn about the anatomy and physiology of domestic animals in Melissa Madsen's ROP Veterinary Science class at **Liberty High**.

Careers with Children

Connie Hunt's ROP Careers with Children class at **Deer Valley High** operates an on-site preschool. Many students in this program have gone on to college to earn their teaching credential.

Sports Medicine

Sports Medicine is one of ROP's most popular classes, and is excellent preparation for pre-med studies in college. **Heritage High** started a Sports Medicine class last year, now taught by ROP Instructor Sarah Davies.

"I love working with the equipment in this class."

—ROP Student

Fire Science

Students in Brian Helmick's ROP Fire Science class at **Freedom High** take part in a fire extinguisher exercise.

Video Production

Students set up a shot in Paul LaCasse's ROP Video Production class at **Pittsburg High**.
